KARAN UTTAM BOLAKE

106/1 Vatasaly apartment Agasan road, Diva Thane – 400612
Email Id: karanbolake57@gmail.com   Mobile no: 8425952506

OBJECTIVE :

Bachelor's in Computer Science graduate proficient in Python, Java, and database management. Seeking a dynamic role to apply coding expertise and problem-solving skills in innovative software solutions. Dedicated to professional growth in a challenging environment.

EDUCATION:

Bachelor of Science in Computer Sciences (Mulund College of Commerce) — **May 2024**

Higher Secondary Certificate (Ramniranjan Jhunjhunwala College) — **May 2021**

CORE STRENGTHS:

Programming Languages: JavaScript , PHP , JAVA , HTML , Python

Frameworks: React , Node.js , Express.js , Laravel

Database Management: MySQL , MongoDB , PL/SQL , SQLite studio

SKILLS:

- Proficient in Programming Languages and Database Management
- Strong discipline and commitment to work
- Excellent communication skills
- Confident in tackling challenging tasks

PROJECTS:

1.Finance Company Website :
Designed and developed a finance company website using HTML, CSS, PHP enabling loan applications, investments, and insurance purchases. Utilized MySQL for comprehensive database management, encompassing CRUD operations. Implemented an admin panel for overseeing loan requests, application approvals, plan modifications, and user transactions.

2.Cricket Android Application :
Created a cricket app enabling users to buy equipment and play a quiz game on historical World Cup winners. Implemented an admin panel for order management and user information tracking. Developed a custom payment system with SQLite Studio for Database and secure transactions and payment history. Proficiently managed CRUD operations for enhanced user experience and database efficiency.

3.Chat Application (MERN Stack):
Developed a real-time chat application using the MERN stack (MongoDB, Express.js, React, Node.js). Integrated user authentication for secure login and real-time messaging using Socket.io. Implemented CRUD operations for user profiles and chat history. Designed an intuitive UI for seamless user interaction. Managed chat data efficiently with MongoDB, ensuring smooth performance and scalability. Enabled private and group chat functionalities, with features like message notifications and typing indicators.

ADDITIONAL COURSES:

Security Fundamentals (Microsoft)

Microsoft Azure Data Fundamentals

Robotic Process Automation with UiPath

Game Programming (Unity)

Ruby on Rails

Tableau
